

Combination Meter

- A large 4-meter optitron meter is used on LE and XLE grade models.
- Through the use of eclipse-like illuminations, the vast expanse and excitement of outer space have been produced.
- A normal display type 4-meter combination meter is used on SE and grade models.
- The multi-information display is provided in the center of the speedometer on XLE grade models.
- The multi-information display indicates warnings, DTCs, the odometer/tripmeter and cruise information (outside temperature, driving range, average fuel consumption since refueling, distance driven since engine start and average speed since engine start).
