

NAVIGATION WITH AV SYSTEM

DESCRIPTION

- The navigation with AV system is available as an option on XLE grade*¹ and SE grade*² models of the '07 Camry.
- The design of the screen has been improved in the navigation with AV system in order to improve its visibility. Furthermore, new functions have been added for improved convenience.
- A hands-free function for a Bluetooth-compatible cellular phone is used. (see page Bluetooth Hands-Free System section on [page BE-68](#)).
- The major specifications of the navigation with AV system are shown in the table below:

*¹: Except package models for dependent territories of U.S.A. and Mexico.

*²: Except package models for dependent territories of U.S.A.
